EXPERIMENT-1

WELCOME

EXPERIMENT 1:Design a UI where users recall visual elements (e.g., icons or text chunks). Evaluate the effect of chunking on user memory.

BAD DESIGN

Heat oil + 1 tbsp butter in a pan.Add chopped onions and sauté until light golden.Add ginger-garlic paste, cook for 1 minute.Add tomato puree and cook until oil separates.Add chili powder, turmeric, salt, and cashew paste. Mix well.
Add water to adjust gravy consistency. Simmer 5 minutes.Add paneer cubes and cook for 2–3 minutes.Add garam masala, cream, and remaining butter.Mix gently and switch off heat.
Garnish with cream + coriander.Serve hot with naan, roti, or rice

BAD DESIGN

- Too much text in one paragraph
- No proper spacing
- No visual hierarchy
- Poor readability
- Unbalanced layout

GOOD DEESIGN

- Clear headings
- Bullet points & numbering
- Proper spacing
- Visual hierarchy
- Better image placement
- Short & crisp content

THANK YOU
